MA

I sincerely hope I am not commiting a huge blunder as I am unsure if this is the correct person I once knew. The Al Pruitt I knew was stationed at Beale AFB, Marysville, CA in 1968/69 and primarily updated the control panels of the SR-71' s. When he left the Air Force, he joined a real estate investment group in San Francisco and I would see him from time to time, but we eventually lost touch. I am saddened to learn of his passing as I always considered Al to be straightforward and loyal to friends which is a rarity. Again, if this is not the correct person, I sincerely apologize and offer my condolences.
