

Arthur L. Pritchard

October 7, 1938 - August 2, 2020

Comments

“ While I did not know Art when at Dartmouth College, Bill Prouty and other classmates did. He was a graduate of the College, and of two of the Graduate School there. He was also a member of Gamma Delta Phi. I am a classmate of his with the role of writing an obituary or memories of him, his family, his career, his interests and such. I read some of the memorials others have written on this page; very rewarding. I am an Episcopal Priest, also born in California, and had a cousin who lived many years in Grass Valley, Nate Whitillsey. I live in Florida now and would like to hear from Art's family. My contact information is 616-240-4988, kta4careers@gmail.com. Please reach out.

“ Arthur was the father I never had and my best friend . The best friend anyone could ever ask for . He taught me everything about being a man of integrity . He was full of brilliant ideas and cunning curiosity . I love this man with all my heart. I am completely saddened and broken over his passing but I hold solace in the fact that he knew I loved him and still do love him more than anything . He literally guided me to a stable life . I became a full time employee of a job I was contacting for over the last 14 months on July 27th ... the last conversation we had he was congratulating me on the news and telling me how happy he was... he wanted nothing more than for me to become a good man with a stable life . I will continue to strive to make him proud and keep his memory alive . He brought me and my siblings back together . I have no idea where I would be without this man. I love you forever Arturo ... until we meet again pops.

“ Arturo , as we called him was a great friend, and father figure to my children. Especially EJ, they talked for hours, discussing everything under the sun. He was a good man, very intelligent and kind. My daughter Jimi, and my sons Mike and Charles also had a great relationship with Arthur. I taught Arthur how to text, boy did he text, long entailed text, with information and ideas for everyone. We love you Arthur. We will miss you terribly.

“ Arthur was my landlord from 1992-1998 while I was a graduate student at Cal. He was very kind and generous. He gave me an affordable place to live while I completed my studies, and a beautiful spot to garden. I remember him fondly and send my condolences to his family.
