“ *I just heard of Dr. Harvey in the last few weeks and was totally awed at his work! Now I find he has passed away. I hope that his work in holographic blood and other natural remedies continues to gather support and acknowledgment from the medical community.*

“ Harvey Bigelsen was a respected and valued part of the AZ Homeopathic & Integrative Medical Association. He was my doctor for a number of years, was ahead of his time. He is now sitting at the table of great physicians with Abram Ber, MD, Stan Olstzyn, MD, Bruce Shelton, MD, and many others. You were an honor to know!

“ OMG-What a shock! Harvey and I grew up together in Brooklyn, NY. I rode handlebars with him many a day, as we biked up East 51 Street. etc....hanging out with Morty Greenberg, Monroe Scheiner, Eileen Casper, Beverly Simon, etc. He was a dear friend--always in my heart...my first boyfriend.
