“ Happy Birthday sweet pea. I had to do something, as it didn't seem right that no services had been held. So we did. (Despite thwarted attempts to have it canceled by you know who. They even called/emailed all your friends/family to dissuade them from attending) It was small but beautiful.. just like you. We had a man playing the bag pipes. I lost it when he played amazing grace in closing. Your niece and sister made little memory magnets and tiny corked bottles with your picture and little trinkets in them for everyone to take home. Oma sent flowers from Alaska. Your brothers set up solar lights around the pond and up the path. Richard Dunnigan came and brought pink carnations to you. Your cake was beautiful AND scrumptious. We released 4 Koi into the fish pond in your honor. Nancy and Larry were very kind to permit us to have your memorial and birthday tribute there. Someone has blocked or took down your facebook account. At least they finally added your photo to your obituary. We were told other than the viewing, no services would be held. You had relatives whom flew in from out of state even. All attempts to meet with them in your honor were declined and we were told to let grieving parents be.. So I left... crushed.
