*How precious is this, Bless your hearts for creating this in memory of my mother. I am so sorry I did not see this before now, and here on her birthday Jan. 21st, I came across this amazing memorial site created for her. Thank You so much for this and the kind memories shared. So many fun times visiting N.Y. with all of us families together, family reunions! Cousin Bill on the tractor/mower always taking care of things.*
