“ *In our teens we played ball on the same team. Then, when we hit 18, we joined the Air Force together. We went to Guam together at the start of the Korean War. Nicky performed 100 missions over Korea while I stayed on the ground... watching him take off and land. We were sent home from Guam in 1952. For 20 days after our discharge... Nicky hounded me to re-up with him. I absolutely refused... on the 29th day... Nick re-enlisted. In total, Nick's remarkable record reflects more than 100 missions over Korea and 69 missions over Viet Nam.*
