“ *Im so sorry to hear of the loss of Ms Switko..i work for Timberlake and she was my most favorite client :) she always asked about my children and even used to send me little gifts...i have little fairies on my desk as well as a picture of when she went to Tahoe. i even shared with her pictures of my family. so if you come across a picture of a stranger and her daughter ( i only had one child at the time) it might be me. she was the sweetest lady ever..my sincere condolences to the family...*
